army that garrisoned the fort.
This perilous exploit of this mightiest of Hebrew captains, gave David this citidel of Zion where he ever afterwards made his home: and this was called "the city of David."
David and Solomon never lived on the western hill now called Zion, but in the limited area of 929 by 424 feet now covered by the South ern end of the Haram. And under this Haram floor must be found the sepulchers of David. The walls that Nehmähr restored embraced only the temple hill and Ophel south of the "city of David." The city of Jerusalem gradually spread who gave it to her in his last days as a reward for he care and at a reward for he care and stays.

nation as to his course in the matter. To all non-partisan and unprijudiced men, this letter serves has an index to the true man that he is—that loves Kentucky, the word or pain to be relieved and dear South Land, and stands in defense of unjust charges against his people. That he would see to it that the murderer of Marcum is punished to the laws limit—and, nit his, he is unlike the Republican acting Governor (?) Taylor, when Governor Gobel was shot. In fact, they get more out of it than any other class of citizens.

The merchant is benefited only by the increase in the volumn of business, while the farmer gets cheaper coal, wire, lumber, and better prices for his cattle, hogs and sheep, and better shipping rates sheep, and better shipping rates for his tobacco. Let every good citizen go to work in earnest for the new railroad.

How Cheap Baking Powder is Made

A recent seizure of a lot of "cheap"

baking powder by the authorities of a neighboring city has exposed the character of the low priced brands of baking powders which many manufacturers are offering the character of the low priced brands of baking powders which tention to them. Samples were taken and analyzed. The office of the powders first attracted attention to them. Samples were taken and analyzed. The office of the powders were declared dangerous to health and several thousand go pounds were consecuted and depowders were declared dangerous to health and several thousand go pounds were consecuted and destroyed.

Physicians have frequently cantioned consumers against mixing food with these so called "cheap" baking powders. They are all found, when analyzed, to contain large percentages of aium and sulphurie acuid to which are added a various sorts of filling matter, and the support of the chairmanship is hurtful to the sometimes both injurious and nasty.

This is the way that Judge Harbaking powders, are the most economical and wholesome and should always he selected for use. They will be found cheaper in the end, besides making the food better and more healthful.

The Man of the Hour in Ken

Prosecutor Andrew Floyd Byrd, of Wolfe county, probably fills a larger place in the public eye today larger place in the public eye today than any other man in a similar position in the State. This is due to his rigid prosecution of the merdeeres of Attorney Jas. B. Marcum in Jackson. Mr. Byrd has been Prosecuting Attorney in the Breathit district for six years and will likely be a candidate for another term, although pressure is being brought to bear on him to announce himself a candidate for Attorney himself a candidate for Attorney rem, although pressure is being frought to bear onhim to announce himself a candidate for Attorney for the next State convention. Many persons have told him that he was the greatest and most daring Prosecutor in the State, but his head does not seem to be turned by such statements from people who think he was takefrom people who
